Everything you need to know  
about our premium smoothing  
treatments.

NANO  
SMOOTHING  
TREATMENT

# WHAT IS OUR SMOOTHING TREATMENT?

Our Smoothing Treatment is deep conditioning process designed to restore hydration, repair damage and improve overall hair health without altering the natural structure of the hair. It is ideal for clients wanting softer, smoother and more manageable hair with a natural finish rather than strong straightening.

This treatment helps reduce frizz, revive dull or dry hair and improve shine, softness and elasticity. It works by infusing nourishing proteins, amino acids and conditioning agents into the hair fibre to strengthen and improve its condition from within.

This Smoothing Treatment is a lighter option compared to Nanoplasty, offering restorative care focused on hydration, repair and frizz control without long-lasting restructuring or stronger smoothing effects. It is perfect for colour-treated, dry, frizzy or damaged hair and leaves the hair looking healthier, smoother and easier to style for several weeks with proper aftercare.

For clients wanting more long-lasting smoothing, reduced volume and a more structured, sleeker finish, Nanoplasty is the stronger alternative within the same treatment system.

# TREATMENT MENU & PRICING

---

# NANOPLASTY TREATMENT

# WHAT IS OUR NANOPLASTY TREATMENT?

The Nanoplasty Treatment is a professional, in-salon hair transformation system designed to restore and smooth your hair using advanced, cutting-edge technology and nourishing, non-toxic ingredients. Unlike traditional smoothing treatments, Nanoplasty works at a deeper level, rebuilding the hair's internal structure while delivering intense hydration, strength, and long-lasting smoothness.

Powered by advanced nano-molecular technology, this treatment works deep within the hair to repair damage, reduce frizz, and boost natural shine, leaving your hair smooth, strong, and easy to manage. With its high-performance formula, Nanoplasty delivers lasting results without compromising the health of your hair or scalp.

Here's what makes Nanoplasty a standout choice:

- Formaldehyde-free and gentle on the hair
- Repairs and strengthens damaged hair fibres
- Delivers long-lasting frizz control, smoothness, and shine

Whether you're maintaining your results or trying it for the first time, Nanoplasty leaves your hair stronger, smoother, and visibly healthier—beautifully transformed every time.

A hairdresser in a black shirt is using a blue flat iron with the 'b.k.t.' logo on a client's dark hair. The client's hair is pulled back with a pink clip. In the background, another person in a blue shirt is partially visible. The scene is set in a bright, clean salon environment.

## WHY CLIENTS LOVE NANOPLASTY:

- Leaves hair smooth, soft, and naturally glossy without feeling heavy
- Delivers long-lasting frizz control, even in humid conditions
- Improves overall hair health, strength, and manageability
- Reduces daily styling time and effort
- Suitable for all hair types, including coloured and chemically treated hair
- Enhances shine while maintaining natural movement and body
- Results that last up to 5-8 months with proper care

# TREATMENT MENU & PRICING

<b>Medium/Long Length</b> (below shoulder length to waist length)	3 hrs 15 mins	\$450
<b>Extra Long/Thick Hair</b> (below waist, extra thick hair)	4 hrs	\$610

# AFTERCARE RECOMMENDATION

To maintain smooth, long-lasting Nanoplasty results, we recommend using professional at-home care products available directly from our salon.

We highly recommend the BKT Hydra Shampoo, specially formulated to gently cleanse while maintaining hydration and extending the life of your treatment. It helps preserve softness, shine, and frizz control without stripping the hair.

For best results, we recommend pairing your routine with:

- *BKT Hydra Shampoo* (available in-salon) to gently cleanse and maintain results
- BKT Hydra Deep Hydration Hair Mask for added protection and manageability
- A smoothing oil to enhance shine and control frizz
- Avoiding harsh sulphates and stripping shampoos at home

Using the correct aftercare from our salon will help extend your Nanoplasty results, keeping your hair smoother, healthier, and more manageable for longer.
